EDUCATION

Maulana Azad National Urdu University

B.Tech in computer science - CGPA - 8.57

2019 -2023

Hyderabad, Telangana

CORE SKILLS

- C# / .NET Core
- ASP.NET Core MVC
- RESTful Web APIs
- SQL Server
- Entity Framework / LINQ
- ADO.NET
- Application Support
- Debugging Troubleshooting
- Incident Management
- Root Cause Analysis
- Git / Azure DevOps
- Agile / Scrum

PROJECTS

E-Commerce 🔗 | [ASP.NET Core MVC, C#, SQL Server](#)

- Developed and maintained backend modules using ASP.NET Core MVC and C#.
- Built and integrated RESTful APIs for order and product workflows.
- Worked with SQL Server, stored procedures, and query optimization for application performance.
- Debugged application issues and implemented fixes to improve system reliability.

Health Management System 🔗 | [ASP.NET Core MVC, C#, SQL Server](#)

- Developed and supported web application modules using ASP.NET Core and C#.
- Implemented business logic, validation, and API integrations for healthcare workflows.
- Worked on debugging, issue resolution, and production support activities.
- Designed SQL queries and stored procedures for reporting and data handling.
- Collaborated with QA and support teams in Agile-based development cycles.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript

Frameworks: ASP.NET, ASP.NET Core, MVC, Web API

Database: SQL Server, Stored Procedures, Query Optimization

ORM / Data Access: Entity Framework, LINQ, ADO.NET

Support Skills: Incident Management, Root Cause Analysis, Debugging, Production Support

Tools: Git, Azure DevOps (Basic), Postman, Visual Studio

Concepts: OOP, SDLC, Agile/Scrum, MVC Architecture

WORK EXPERIENCE

CloudO Solutions 🔗

.NET Developer

04 2025-Present

Hyderabad

- Provided application development and support using C#, ASP.NET Core, and SQL Server.
- Worked on debugging, troubleshooting, and resolving production issues to ensure system stability.
- Developed and maintained RESTful APIs and backend business modules.
- Used Entity Framework, LINQ, and ADO.NET for database access and application maintenance.
- Analyzed application issues, performed root cause analysis, and implemented fixes.
- Worked with SQL Server queries, stored procedures, and performance optimization techniques.
- Collaborated with QA, UI, and backend teams throughout development and support lifecycle.
- Participated in code reviews and followed coding standards and SDLC best practices.
- Used Git and gained exposure to Azure DevOps workflows in Agile/Scrum environment.

CERTIFICATIONS

- .Net - Udemy
- Java for data structure at -Acciojob
